

Greetings School Improvement Council participants!

In order to accommodate everyone's schedule the administrative team and I have decided to create a Google classroom page. We will use this forum to discuss and implement ideas to improve our school on a monthly basis. The SIC team will review suggestions and respond to them through this platform. If you do not have a Google account please create one and join us by using code 8kyci8. Enclosed is a link to assist you in creating a Google account and how to join a group within this type of platform.
